

## Special Issue on mental health in Poland

Editor: Dr. Paweł A. Atroszko

We invite you to submit articles for the Special Issue of the Journal of Concurrent Disorders. The call is particularly aimed at young researchers and experienced scientists, and outstanding specialists in their fields. This issue is dedicated to research on mental health problems in the Polish population. In recent years in Poland, we have observed increasing problems of mental health among the youngest generations. It resulted in the so-called “child psychiatry crisis,” as well as the general psychiatry crisis. There is a growing need for systematic research on the factors contributing to this situation, as well as on potential solutions. We especially welcome high-quality original studies, including large-scale epidemiological and longitudinal research findings.

**Manuscript types can include:** Reports of empirical studies; Reviews; Meta-analyses; Case studies; Opinion papers; Commentaries; Letters

**Manuscript submission: The manuscripts can be submitted throughout the year 2022.**

The submission of articles will first be previewed by the editorial team. Following a successful editorial preselection, the papers will be sent out for double-blind peer-review. The paper lengths should be between 6000 and 9000 words (double spaced, APA format) depending on submission type:

<https://concurrentdisorders.ca/submission-type/>

**For author guidelines and information on the online submission, please see the journal’s website:**

<https://concurrentdisorders.ca/author-guidelines/>

**Journal indexing:**

<https://concurrentdisorders.ca/journal-indexing/>

The projected release date for this special issue will be **January 2023**.

**Submit your manuscript to:** [p.atroszko@ug.edu.pl](mailto:p.atroszko@ug.edu.pl)
